Short Talks or Papers to be read at future Meetings.

The President said a suggestion had been made that to enliven their Monthly Committee Meetings a member should be asked to give the members a short talk or paper on a subject of general interest such as foot and mouth disease, or any agricultural subject when those present who might like to do so could give their opinions on the subject. The paper, or talk, would have to be short because many members have to catch Buses after 3 o'clock, so that much time would not be left for the discussion.

Prof. Boyle to read first paper at next Meeting.

After discussing the matter, Mr. Halliden proposed ^{the} suggestion, as outlined by the President, be adopted, and he further proposed that Professor Boyle be asked to read the first paper at the Meeting to be held in June on the very important subject of "Grass Ensilage". This was seconded by Mr. M. Twomey, and Prof. Boyle very kindly consented to read a short paper on the above. It was further agreed that, in view of a number of members having to leave Cork on Buses at 3 p.m., the next Monthly Meeting be held at 2 p.m.

Foot & Mouth Disease.

On the motion of Mr. E.J. Clarke, seconded by Mr. A.H. Moore, it was decided that the Society, (and to ask the farming community also,) should co-operate in every way with the Department of Agriculture in their efforts to stamp out the Foot & Mouth disease, which is so prevalent in other Counties at the moment. (passed).

Vote of condolence.

On the motion of Mr. A.H. Moore, seconded by Mr. N. Hayes, a vote of condolence was passed to the relatives of the late Mr. A.J.L. Perrier.
