The business of farming requires easy and efficient payment. One of the easiest ways is by using a cheque book. A current account with the National Bank avoids the danger of carrying large sums in cash, and Cheques provide evidence of payment.

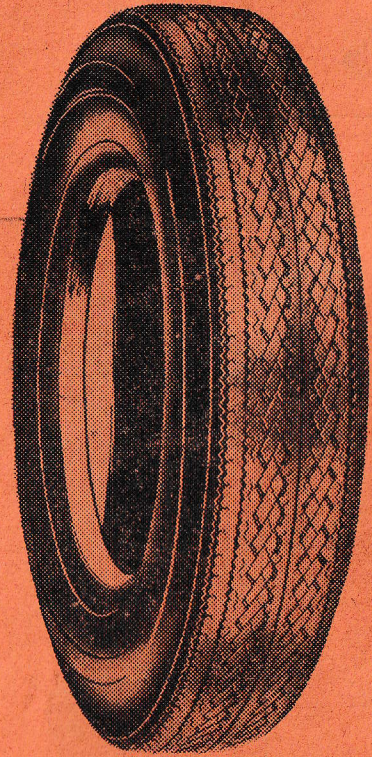

Let the Bank record your financial transactions—receipts and payments. Whether your account is large or small you are always most welcome at the National Bank.

DANGER!

CANNIBALISM

Yes, featherpicking or cannibalism is one of the big dangers to profitable poultry-keeping. In the past it has meant considerable losses, but now a new product, Solusediv, can combat and control the danger in a few days. At the first signs of an outbreak you just add Solusediv to the drinking water for a three-day period. Solusediv is a safe and inexpensive treatment with no damaging side effects and it is suitable for birds of all sizes and ages.

Solusediv is available in 20ml. and 500ml. sizes.

One 20ml. sachet diluted with 17½ pints of water is sufficient to treat 20 hens or 50 chickens.

Old in years, young in heart

Powers Gold Label has the lightness of youth and the smoothness of age because it is blended with great care from several vintages of the same fine whiskey ranging from seven to fifteen years old. This subtle fusion of age and youth gives Gold Label its characteristic flavour and lightness. It is bottled by the distillery itself to ensure that it never varies.

GOLD LABEL

Distilled and bottled by John Power and Son Ltd., and bottled by the Distillery.
