WHITAKERS CHICKS

If you keep poultry or turkeys you may as well have the best that money can buy.

For Hybrid Chicks we recommend our Fairbairn Sterling White Link or Ranger 2 Brown Egg Layer, or our R.I.R. x W. Leg. Cobb Broilers are now being produced by us and we would be pleased to quote you for your requirements.

For turkeys our large broad-breasted white cannot be beaten.

As well as all these we have the equipment for rearing and the advisory service which is second to none.

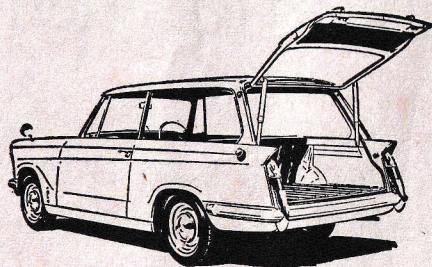

Remember, a Hatchery is as good as its hatching eggs, and we have only the best.

Electricity can do all these jobs for you at an astonishingly low cost. You pay the fixed charge for electricity supply anyway, so it only costs a little extra to use it to pump and heat water, to grind grain, to milk to weld and to do many other jobs. Use electricity to make more money.

Discovery at Cologne

These days the familiar Gold Label bottle turns up in the most unexpected places. It's not so strange really. Europe is a big, civilized market and the best products from every country are finding their way

across more and more of the International frontiers. Gold Label is one of the world's truly great whiskeys and is now coming to be as highly regarded by discerning Continentals as it has always been here at home, in the birthplace of whiskey.

Of course it's
my kind of Bank!

A FRIENDLY FAMILY BANK

Really I'm managing to save so much with the Cork Savings Bank, and I may claim tax exemption on the first £50 of bank interest. My money's earning interest all the time. I like the Cork Savings Bank because I get treated as an individual and it's really a Friendly Bank. Most of my regular payments (rent and personal budget accounts) go straight through my bank. The bank also provides a Bank Book so I know exactly where I stand with my savings. I enjoy saving with . . .

Six crisp words: *Made in the Republic of Ireland.*

One important name: *G.E.C.*

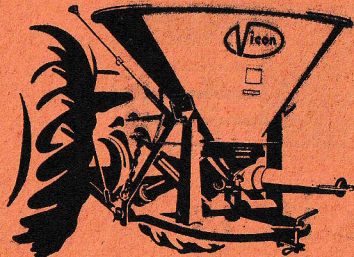

Two important facts for every Irish housewife to remember when buying anything electrical. Made in the Republic of Ireland means there is no Import Duty involved. What you buy is *all* product—skilfully manufactured here in Ireland. G.E.C. engineering and design means quality and value where it counts—in the product and in your purse.
